EXPERIENCE

2019-2024 Milton Keynes College
School of Arts & Media Technician in Graphic Design

As a Graphic Design Technician I was responsible for the poster, banner, brochure, flyer and other designs which represented and supported the School of Arts events. This role helped me to gain more experience on the Adobe Suite programs. I was also able to attend sessions where I have learned new practical skills like screen printing, lino printing, mark making, etching, laser cutting. All these skills help me in my graphic design pathway, making the artwork more creative through the combination of physical and digital art.
